

## Go On With Your Dancing

Jean Shepard

Go on with your dancing go on have your fun  
You've hurt me the last time the damage is done  
When I saw you kiss her my heart felt the same  
So go on with your dancing and don't change a thing

Where there's tinkle of blusters and sparkle of wine  
You've met her out here now just one too many times  
The kiss you were stealing you thought you could hide  
But go on with your dancing and I'll step aside

Go on with your dancing and laugh with the crowd  
I lost you to bright lights and music so loud  
I wish I could kiss you just one last goodbye  
But go on with your dancing it's no time to cry  
Where there's tinkle of blusters
