## **Hello Old Broken Heart**

Jean Shepard

Hello old broken heart I see you're back once more Hurtin' the same way as you did before Listen old broken heart I've got some news for you Achin' won't help things and tears just won't do I promised myself that I'll see you no more but you have me cry ing as you did before Look here old broken heart go away and let me be Just because he has gone don't come crying to me

I promised myself that I'll see you no more but you have me cry ing as you did before Get lost old broken heart I wish you'd let me go But no matter what happens I still love him so
