

# I Don't See How I Can Make It

Jean Shepard

I don't see how I can make it with you gone  
I woke up today, and found that you had left me  
But I wasn't so surprised to see you gone  
I could see for quite a while that it was coming  
But I don't see how I can make it with you gone

I can't read the find-a-friend, that's in our contract  
Read a needle twenty faces from it's sight  
See the Leaning Tower of Pizza in perfection  
But I don't see how I can make it with you gone

I remember when you said, I love you, truly  
Said our vows of love till death would separate  
I can see the days ahead are blue tomorrows  
But I don't see how I can make it with you gone

I can't read the find-a-friend, that's in our contract  
Read a needle twenty faces from it's sight  
See the Leaning Tower of Pizza in perfection  
No, I don't see how I can make it with you gone
