I Don't See How I Can Make It

Jean Shepard

I don't see how I can make it with you gone I woke up today, and found that you had left me But I wasn't so surprised to see you gone I could see for quite a while that it was coming But I don't see how I can make it with you gone

I can't read the find-a-friend, that's in our contract Read a needle twenty faces from it's sight See the Leaning Tower of Pizza in perfection But I don't see how I can make it with you gone

I remember when you said, I love you, truly Said our vows of love till death would separate I can see the days ahead are blue tomorrows But I don't see how I can make it with you gone

I can't read the find-a-friend, that's in our contract Read a needle twenty faces from it's sight See the Leaning Tower of Pizza in perfection No, I don't see how I can make it with you gone
