

# I Love You More Today

**Jean Shepard**

I want you more than any woman can  
you mean more to me than any  
other man  
Now she's with you things you do with her I've done them for so  
long  
I love you more today than she can from now on  
I kissed your tears away when you were sad  
Held you close felt your warm love when you were glad  
So no matter how much love she has for you or how long  
I love you more today than she can from now on  
We've already done the things she plans to do  
So don't be surprised if late at night I'm in your dreams with  
you  
And if someday her love for you should go wrong  
I love you more today than she can from now on  
I love you more today than she can from now on
