

I'm Tied Around Your Finger

Jean Shepard

Put me where you want me I'll stay until you call
And when someone throws you over I'll brace you for the fall
I'll help you to forget her when you need sympathy
I'm tied around your finger so you won't forget me
I'm tied around your finger so keep me on a string
And if you ever need me just give my phone a ring
I'm tied around your finger the way I want to be
I'm tied around your finger so you won't forget me

Keep me in a corner but keep me in your heart
Remember that I love you each time the teardrops start
You know where you can find me when her love brings misery
I'm tied around your finger so you won't forget me
I'm tied around your finger so you won't forget me
