

Root Of All Evil (is A Man)

Jean Shepard

You've heard that old story ever since time began that money is
root of all evil
Well let me tell you mine it's much older than time for the roo
t of all evil is a man
They'll tell you that they love you and will until they die
But you'll find them out with someone else before a tear come a
live and it's dry
So girls take my advice think it over once or twice for the roo
t of all evil is a man

Sure there's honky tonk girls but before you condemn
And look at her with storm in your eyes
Hive her just a friendly smile hear her troubles for a while
For the cause of her trouble was a man
They'll tell you that they love you...
