

Tell Me What I Want To Hear

Jean Shepard

Darling please don't make me wonder give my heart no cause to fear

Say you know our love's eternal tell me what I want to hear

Say you feel the same old magic that I feel when you are near

Whisper love words and sing me love songs tell me what I want to hear

Others lips and arms may hold me but no other could make me care

Let me always feel your love dear tell me what I want to hear

Say you feel the same
