

## Wave Goodbye To Me

Jean Shepard

I'm just here to get my things and I'll be leavin'  
And I've got somebody waitin' just outside  
So don't start to cry to me about your hurt and misery  
Cause the only thing that's hurtin' is your pride  
So just wave goodbye to me and I'll be leavin'  
Just walk me to the door and say so long  
No need talking anymore saying things I've heard before  
Just wave goodbye to me and I'll be gone gone gone gone  
Wave goodbye to me and I'll be gone

Go tell all our friends how bad I've hurt you tell 'em how I've  
caused you all this pain  
But when they start askin' you just why I left instead of you  
That might not be so easy to explain  
So just wave goodbye to me...  
Just wave goodbye to me...
