Wave Goodbye To Me

Jean Shepard

```
I'm just here to get my things and I'll be leavin'
And I've got somebody waitin' just outside
So don't start to cry to me about your hurt and misery
Cause the only thing that's hurtin' is your pride
So just wave goodbye to me and I'll be leavin'
Just walk me to the door and say so long
No need talking anymore saying things I've heard before
Just wave goodbye to me and I'll be gone gone gone gone
Wave goodbye to me and I'll be gone

Go tell all our friends how bad I've hurt you tell 'em how I've
 caused you all this pain
But when they start askin' you just why I left instead of you
That might not be so easy to explain
So just wave goodbye to me...
Just wave goodbye to me...
```
