## You'd Still Find A Way To Cheat On Me

## **Jean Shepard**

I could lock you in a deep and darken dungeon put a big ball an d chain on your feet

Even dress you in an old suit of armor you'd still find a way to cheat on me

Every night find you out with another every dawn find you down on your knees

Your lips say you're sorry but your mind knows you'd still find a way to cheat on me

You and I could live alone on an Island with my arms holding yo u constantly

With no friends no telephones and no taverns you'd still find a way to cheat on me

Every night find you out...
