

Bad Girls Club

Jeanette

So lonely inside
Darkness day and night
My blood is freezing in my veins,
yes in my veins
Sadness everywhere
No one out of there
Nobody to bring back my smile (oh) in a while

Damn, damn, damn I feel so dead
and damn I know what they've said

Join our Bad Girls Club
It's time to make a final cut
You've felt a lot of pain and mess
That bloody lovesickness
Join our Bad Girls Club
It's time for you to kick some butt
Together we'll survive the good times
And the hard times, too

We gotta talk now
Everything is somehow
But with all my girls surrounding me -for eternity.
I tried out everything
To forget that hurting thing
Girls, you can make me whole again
Yeah whole again, but ...

Damn, damn, damn I feel so dead
and damn I know what you've said

Together we'll survive the good times
And the hard times, too

Nothing's better than to have good sisters
So much closer, familiar than some mister
But, I have to say this love's still biting - Oh
And I am running low
I know I know - Aow
They say forget that guy
And the game of love
You are right but I'm not yet tough enough
Although we're broken-hearted
We will have to kick their asses in the end

Oh Oh Oh Oh
