

Burning Alive

Jeanette

Oh, no
You are a quite common guy
That's why I will have to try
Oh, no

To be the woman you need
To tell how much my heart bleeds
I'm just a human being, it seems
That you just fell in love to live my dreams

Burning alive, don't leave tonight
I'm burning alive and you're not alright
Stay right here with me
Burning alive

I know, can't use no disguise
So lost, that ain't no surprise
I push and shove my way around
But I must really fear, we're goin' down

Burning alive, don't leave tonight
I'm burning alive and you're not alright
Just burning alive

I know you're in doubt
I'm burning alive
It's making me scream
It's making me shout

I must make you feel okay
'Cause we'll be losin' our way
I'm just a human being, it seems
That you just fell in love to live my dreams

Burning alive, don't leave tonight
I'm burning alive and you're not alright
Stay right here with me
Burning alive
Burning alive
