

# Endless Love

Jeanette

Endless love  
I am here with you  
You never knew that I felt for you  
Endless love  
And I'll always be with you

Endless love  
I can see your smile  
You never knew  
But I ran thousand miles to find you  
Now I'm happy to join our view

And when the wind blows harder  
I'll stand by you  
I'll always do  
We don't hold a licence for love  
Our licence to love is our truth and our hearts

My endless love  
I trust in you  
You never knew but I felt secure  
'cause of you everything will be alright

My endless love  
You were meant for me  
Tell everybody that it's you and me  
And I wish this will last for eternity

And when the wind blows harder  
I'll stand by you  
I'll always do  
We don't hold a licence for love  
Our licence to love is our truth and our hearts

And when the wind blows harder  
I'll stand by you  
I'll always do  
We don't hold a licence for love  
Our licence to love is our truth and our hearts

And when the wind blows harder  
Oh I will stand by you

We don't hold a licence for love

Our licence to love is our truth and our hearts  
forever...
