

Heartbeat

Jeanette

I'm gonna have myself some nightlife
'Cause I just know that it will do me good
I'll go along with all the big hype
An' I won't flinch to do all what I should

Love is in the air
I will be your darling for tonight
Ev'rybody's staring
You can see that I am quite all right

Heartbeat
I'll close my eyes
Heartbeat
You hold me tight
I Can feel your Heartbeat
You turn to me
Heartbeat

So pretty soon it will be midnight
I've checked your body an' it's quite ok
Just stay right here and better sit tight
I'll need you soon but not now right away

Love is in the air
I will be your darling for tonight
Ev'rybody's staring
You can see that I am quite all right

Heartbeat
I'll close my eyes
Heartbeat
You hold me tight
I Can feel your Heartbeat
You turn to me
Heartbeat
