

# Hurt

Jeanette

You're not alone in this world  
when you think you are  
I'll show you that you're not  
I'll share the pain  
when it weights heavy on your heart  
when you are hurting  
And if your world falls down around you,  
I'll be there  
Don't ever think  
that no one needs you or feels you  
Cuz I do, I do, I care

When you hurt, I hurt  
When you cry, I cry  
We're both made of the same blood  
We're the same inside  
When you break, I break  
I feel everything you feel  
When you hurt, it hurts me

You're not alone in this world  
Cuz I'm here for you  
I'll show you that I am  
Every emotion you feel I am feeling too  
I understand you  
And if hard times fall hard upon you,  
I'll be there  
Don't ever think  
that no one needs you or feels you  
Cuz I do, I do, I swear

When you hurt, I hurt  
When you cry, I cry  
We're both made of the same blood  
We're the same inside  
When you break, I break  
I feel everything you feel  
When you hurt, it hurts me

And when you're down,  
it gets me down  
I wanna see you smiling  
you're not alone and you need to know that I care

When you hurt, I hurt  
When you cry, I cry  
We're both made of the same blood  
We're the same inside  
When you break, I break  
I feel everything you feel  
When you hurt, it hurts me
