Let´s party tonight

Jeanette

Been there in New York City
Hasn't been a pity
'Cause I found a guy that took me so much higher
He became my lover
Better than the others
Understood what turns me on is his desire

They're sayin' now I should not complain
But I need more of you in my veins

Gotta get it on in this world of mine
An' we'll be really rockin' till we're out of line
But you know that you will have to be right on time
You can make me movin'
Come on babe let's party tonight

(In this world of mine)

I can be a teaser
When I'm going deeper
Since I wanna see if you've got so much power
Sex (love) is what you're givin'
Music can't be missin'
I will need a beat to energize your feelings

They're sayin' now I should not complain
But I need more of you in my veins

Gotta get it on in this world of mine
An' we'll be really rockin' till we're out of line
But you know that you will have to be right on time
You can make me movin'
Come on babe let's party tonight

(In this world of mine)
