

The Infant Light

Jeanette

Yonder shines the infant light again
You have seen his natel star
Yonder shines the infant light again
Brighter visions beam afar

Sometimes I'm discouraged
I think my work is in vain
Then the holy spirit
Relives my soul again

Oh, if you cannot sing like the angels
And if you cannot preach like Paul
You can tell 'bout the love of Jesus
He died for all

Yonder shines the infant light again
You have seen his natel star
Yonder shines the infant light again
Brighter visions beam afar

Infant holy, infant lowly
Lord of all
Novells ringing, tidings bringing
Lord of all
Swiftly winging, angel singing
Lord of all
Christ the holy babe
Was born for you (and me)

Pray for the other children
Let them know it's christmas time
In our world full of plenty
We let in light
Hearts are bright

Oh, if you cannot sing like the angels
And if you cannot preach like Paul
You can tell 'bout the love of Jesus
He died for all

Yonder shines the infant light again
You have seen his natel star
Yonder shines the infant light again
Brighter visions beam afar

Infant holy, infant lowly
Lord of all
Novells ringing, tidings bringing
Lord of all
Swiftly winging, angel singing
Lord of all
Christ the holy babe
Was born for you (and me)

Yonder shines the infant light again
You have seen his natel star
Yonder shines the infant light again

Brighter visions beam afar
