

# This Love

Jeanette

My baby boy he ain't no ordinary guy  
My boo he does the things that drive you wild  
And he thrills me  
My baby heals me  
Electrifies  
Desire  
Inside

This love has got me tripping and its such a revelation  
His love keeps on hitting yeh my hearts in isolation  
Need adrenalin  
Loves the medicine now  
This love and it thrills me  
This love sure fulfills me  
His love the only thing I need to stay the ride  
This love

Tonight I'm working up an appetite  
The menu's good desert is in his eyes  
And it chills me  
My baby feeds me  
Intensifies  
The fire  
So bright

This love has got me tripping and its such a revelation  
His love keeps on hitting yeh my hearts in isolation  
Need adrenalin  
Loves the medicine now  
This love and it thrills me  
This love sure fulfills me  
His love the only thing I need to stay the ride  
This love

This love has got me tripping and its such a revelation
