

# Time is on my side

Jeanette

You - I saw you in her arms  
I saw you kiss her lips  
You - I've woken up from my dreams  
Oh it hurt so deep  
My feelings start to die  
It's you who makes me cry

Can you look deep down inside  
There is nothing I can hide  
You're no longer on my side

No one cries forever  
No one's staying lonely  
We won't stay together  
Time is on my side  
I will live without you  
I will start all over  
But my heart still loves you  
Baby time is on my, time is on my side

I will start all over  
But my heart still loves you  
You - live your own affair  
Baby time is on my, time is on my side  
Oh - I felt so cheap  
You're deserving her  
Don't want to wonder why  
You - I'm getting back on my feet  
It's you who makes me cry

Can you look deep down inside  
You're no longer on my side  
There is nothing I can hide

No one cries forever  
No one's staying lonely  
We won't stay together  
Time is on my side  
I will live without you  
I will start all over  
But my heart still loves you  
Baby time is on my, time is on my side

You're no longer on my side  
Can you look deep down inside  
There is nothing I can hide

No one cries forever  
No one's staying lonely  
We won't stay together  
Time is on my side  
I will live without you  
I will start all over  
But my heart still loves you  
Baby time is on my, time is on my side
