

I Want To Go With You

Jeannie Seely

I want to go with you to that other world with you
The one your love takes me to I want to go with you

I wish I was glass so you could see through
Then you'd know before you ask I want to go with you
I want to go with you...

Your love takes me away to a world I never knew
So what else can say I just want to go with you
I want to go with you...
