

Weekend Away

Jebediah

I gotta go gotta get away just for the weekend
I've gotta go cos I just can't stay just for the weekend
And when I go leave the shit behind just for the weekend
And may be then something good I'll find just for the weekend

You've gone and run in the wrong direction [x 2]
Now you're so fallin in love, you're so falling alone
I don't care this is not my problem

There's not a lot that I'll have to take just for the weekend
There's not a smile that I'll have to fake just for the weekend

And when I go leave the shit behind just for the weekend
And maybe then find some peice of mind just for the weekend

You've gone and run in the wrong direction [x 2]
Now you're so fallin in love, you're so falling alone
I don't care this is not the real thing

What's forever when I leave
Wipe myself with my soggy sleeve [x 4]
