

# Blood In Blood Out

## Jedi Mind Tricks

(Some guy)

If one does what God does enough times, he becomes as God is  
If you put it together, you get what you wanted  
what you desired, if you do it enough times  
He believes, you become one who is desired, and wanted, and accepted  
Because God has Power  
And if one does what God does enough times, one will become as God is
