

## Neva Antiquated

### Jedi Mind Tricks

"The rapper Ikon be throwing cerebral blows in telepathic forms"  
"The rapper Ikon be throwing cerebral blows in telepathic forms"

Complexities break entities when hardcore be the factor  
Physically shatter by the cause of the megacosm distractor  
Fractured by my supernatural forces, face losses  
As I break backs like Superman on horses, word ajar  
Ancient warrior like Thor  
Spiritual like the Ibis god Thoth  
Complex construction by the technician will dismantle your collective mind  
Enemy of mankind, with Egyptian archaeological finds  
dwelling in the dungeon of time  
Monomaniacal beat seeker  
Swarming like locusts into your speaker  
Examining your communication systems with cybernetics  
Key notes of my flows or get froze with cryogenics  
East coast domination for the D-U-B massive  
Gathering at black masses to gain knowledge of the clashes  
of past rhythmic masters  
After the smoke clears, brain matter is discovered  
Smothered by my soundscapes that have left you dismantled  
Enchanted by my verbals as Ikon be burning candles

"The rapper Ikon be throwing cerebral blows in telepathic forms"  
"Futuristic, neva antiquated"  
"The rapper Ikon be throwing cerebral blows in telepathic forms"  
"Causing cataclysms, to serve a purpose"

Emerging from the mist is not an individual but four  
hardcore concepts causing everything to be raw  
8804 AD causes misery that be abominable  
Evil like three times hexagonal  
To test my squadron and watch your macrocosm turn to particles  
Non-particles are non-particles  
Like the nucleus of an atom  
The corpuscles which carry the oxygen from the lungs gather patterns  
Energy from the soul, black hole, like spirit of Kukido  
Sun, black circle of one, level of brevity is none  
Transformed by gods of sun  
Industrial power get devoured by the demonic  
Read the fine rhymes with mental +War Games+ like Matthew Broderick  
Revive shit, or live shit defy the carcass  
My war sons and born sons revolve around darkness

"The rapper Ikon be throwing cerebral blows in telepathic forms"  
"Futuristic, neva antiquated"  
"The rapper Ikon be throwing cerebral blows in telepathic forms"  
"Causing cataclysms, to serve a purpose"

"The rapper Ikon be throwing cerebral blows in telepathic forms"  
"Futuristic, neva antiquated"  
"The rapper Ikon be throwing cerebral blows in telepathic forms"  
"Causing cataclysms, to serve a purpose"

Spiritual violence leave your alliance in microscopic fragments  
My circle of darkness is ferro-magnetic  
Suffer Chinese water torture, my word is water

Transcendental planets will vanish like ???????? daughter  
Hypnotical regions in my mental, a rhythmic cycle  
Recitals of euthenic theories have been retitled  
To be digested by the masses, I smash kids with verbals  
Gortex through your chest causing incidental murders  
Of weak minded emcees getting caught up in my hurdles  
of chemical disruptions, by sodium chloride, potassium, denatonium benzote  
Ultimate sacrifice to the gods bloodier the kings  
Son of Barada, know the mode of darkness like Bhagavadanta Prabhupada  
Infinite light, space and time rhyming physics  
Polyrhythmic planetariums relate sounds from aliens on other planets

\\\

[Ikon / Sun Pharaoh]

Complexities bring entities when hardcore be the factor  
Physically shattered by the cause of the macrocosm distracter  
Fractured by my supernatural forces, face loses  
As I break backs like Superman on horses  
Word ajar, ancient warrior like Thor  
Spiritual like the Ibis God Thor  
Complex construction by the technician  
Will dismantle your collective mind, Enemy of Mankind  
With Egyptian, archeological finds  
Dwelling in the dungeon of time  
Monomaniacal beat seeker  
Swarming like locust into your speaker  
Examining communications systems with cybernetics  
Key notes of my flows will get froze or cryogenics  
East Coast domination for the D-U-B masses  
Gathering at black masses to gain knowledge of the clashes  
Of past rhythmic masters, would end up bending, never-ending  
like the sky  
One-point twenty-one gigabytes to defeat me like Marty McFly  
So why, would you battle with the recipe  
Got rappers sweating harder than some retards on Jeopardy  
One time for your mind, no doubt

(Chorus)

My Jedi Mind Tricks will break your molecular structure down.  
(Return of the Jedi)  
My Jedi Mind Tricks will break your molecular structure to  
pieces.  
(Return of the Jedi)

My brainstorm will swarm into your sections  
Scientific lessons and my possession unload within my session  
Injections infesting insight am I causing tension  
Blessing mad crews is my obsession

Intentions to make you change professions  
Wisdom imprison dejects leaving you vexed  
My cerebral vortex rips erects when I infest (bless)  
We deep scriptures that's evil  
There's ? my cerebral, then ? remain imperial  
Unbelievable lyricism will leave incisions  
Cause pain like circumcision as you recognize (the realism)  
The G-O-D verbally damage M.C.'s  
Tragically come and battle me, bare witness to insanity  
My corrupted mentality, plan to slaughter your family  
grammatically  
I bless the microphone with strategy  
Your alliance is left in silence, victim of verbal violence

Deadly vocabulary, the God be dropping science  
No doubt

(Chorus)

Amongst the illest individual's, I bless the mentals of  
criminals  
With materials formulated to penetrate cerebrals  
I'm lethal, imperial type scriptures infiltrate, then split you  
Simulating your nugget when I hit you  
Emerging from the mist is not individual but four  
Hardcore concepts causing everything to be raw  
8804 AD causes misery that be abominable  
Evil like three times hexagonal  
Test my squadron and watch your macrocosm turn to particles  
Non-particles are non-particles  
Like the nucleus of an atom  
The corpuscles which carry the oxygen from the lungs gather  
patterns  
Energy form the soul  
(Fade): Black soul like spirits of Kukido

(Chorus)
