## Jedi Mind Tricks

I told them of the Hale Bop comet 7 years ago...  
It is running if you will notice on our sensors  
we have picked up a ship beneath it ...of great dimensions...  
All we are trying to do, us humans, is that we shall not die so soon

Over the earth I hover  
Spinning whirlwinds in Wheatfield's  
While my force fields repel four winds for broken seals  
Numbered Sedative  
Bending my brethren, breaking bread with Yeshua  
In Bethlehem,  
The last tribal star soul the alien Seth Alam  
The devil bears the pentagram, a wormhole/ hologram  
My body slams man with the heavy grams  
Lay the beat down;  
Make big connections to the Son of Sam and Uncle Sam  
So SamIam keep ya fuckin eggs and ham!  
Performing alien brain scans and spiritual exams  
While the mother ship lands on holy land  
My mental expands with plans to span through the galaxy  
I land in farmers crops spelling out the name 'Apathy'  
Speaking my name is blasphemy, so call me your majesty  
Majestic phonetics begin to affect your reality  
Religiously, I mystically chant and recite on mic's  
At astronomical Heights  
Guided by the northern lights  
Poltergeist, masquerade as Christ, entice like Heidi Fleiss  
Trying ta put the righteous on ice  
You're a holographic device, and simply see through  
Robotic like R2D2, I'm original like Hebrews  
And 144,000 people meant Allah's blessing can keep you  
Form gargoyles like Tin Foil they sit upon ya steeple!
