Jedi Mind Tricks

The lawnmower man smashes, through ya skull with battle axes
We whip asses, with the jaunty daggers
And smash this, crushing opposition like we was fascist
Stigmata and four gashes
We bashes, the faggots who can't attack it right
Take they sternum and then turn em into my acolytes
That's the sight of blood, that make a child stop
That's the rights of thugs that keep it wild hot
I hate you, say a prayer to a heavenly father
It's fatal, like a natal military armada
We hotter, warriors from Atlantis
Couldn't overstand how raw the Hologram is
The mantis, who used the flame rod
You couldn't physically bruise the name God

(2x)

We smash mics, and blast too precise
And laugh as we cast the first stones at Christ

We born builders, as life takes it's toll
Legends of the seven, embrace my soul
Transported off the planet, by a supreme force
And told to return on the day of Pentecost
I bisect the ways between Heaven and Earth
And scramble messages from God into your church
Deception, blinds your perception
My reflection outshines the other colors in the spectrum
The brethren, I cease the peace corps
We follow street laws, engaged in Beast Wars
The visionary bombs, with military arms
Aimed at that motherfucker with pitchfork and horns
I sent alchemy throughout the galaxy
To cause fire and ice, like Flames in Calgary
You're trapped in, the core of corruption
Left a fossil, in my path of destruction

(2x)

We smash mics, and blast too precise
And laugh as we cast the first stones at Christ

I am the man who lives above the force of good and evil
The man that handed down the powers to give to my people
Live under laws of bald eagle
There's no tomorrow
Get trapped with the trenchcoat killers in Colorado
Blazin spark, feeling certain my days are marked
Live a life that conflicts with the ways I'm taught
Fuck it, we bring it hardcore, raw and ragged
Ya team must be hidin they balls, like a faggot
I came with the light and gave sight to the sages
Black ink contained to write truth on white pages
You're sliced faceless
Subjected to a massacre
Jedi Mind, bombin your moves like John Africa
We laugh at ya
The devil is the bomber
We unaffected as we protected by God's armor

(2x)

We smash mics, and blast too precise
And laugh as we cast the first stones at Christ
