## When All Light Dies

Jedi Mind Tricks

Yeah, Jedi Mind Vinnie Pazienza, the Enemy of Mankind Servants in Heaven, Kings in Hell Horrorcore, yeah, walk with me

I pop a pill and zone, my voice alone 'll fuckin' kill your bones The AR-15 beam leave you still as stone I'm workin' twenty-four-seven while you chill at home I'm on the block with my people where the killers roam I'm in a killer zone, where police can trap me I'm ready to go to war with them like we Iraqi We in the last days, only darkness passes No more pure air, only bloody money ashes Yeah, you need to recognize the God is sick 'Cause I was born inside of Egypt near the Gaza Strip Don't make me cock the fifth, and put the flame to him And thug it out like the Israeli's and Iranian's Remember when I put the pen to pad When I heard "Style Wars" by Lakim Shabazz Then in the lab, everything was constructed with Stoupe And y'all know that no one fuckin' with us as a group

[Chorus: Shara Worden] When All the Light goes out where will you be? When the darkness comes what will you see? (When the lights go out) When All the Light goes out where will you be? (When the lights go out) When the darkness comes what will you see?

[Verse 2: Vinnie Paz] I'm a cannibal corpse, .38 snub splatter your thoughts Peel your skin off of your body like animal cloth I'm the reason for the Carthage in Hannibal's force I'm the reason for the carnage in parable's lost And I'll put the heater right where your lungs at And none of y'all would be around if I could bring Pun back You want the horrorcore Vinnie? He brung that Along with the .44 militant gun rap I break bread with the brothers I trust 'Cause I know that if I'm ever in some trouble, they bust Could never be us, we too raw for the rap now Anybody with a tape recorder can rap now I pull a twelve gauge shotty, you back down And then the last thing you hear is the gat sound From the city where they framed Mumia We gonna break him out, run up with them flames and heaters

[Chorus: Shara Worden] When All the Light goes out where will you be? When the darkness comes what will you see? (When the lights go out) When All the Light goes out where will you be? (When the lights go out) When the darkness comes what will you see?

[Verse 3: Vinnie Paz]

Yeah, yeah, I carry heavy fifths, I'm a biological terrorist If you ain't been in war, then you don't know what terror is You try to help people but do nothin' like therapists It's basic rules to the game, cousin, you never snitch Or you can see the type of lead that my Beretta spits Or send you through the torture chamber and behead the bitch Yeah, I'll put your body to the blades and choppers And teach you about the disruptive symbol of chakra's If you believe what they tellin' you, the beast and them won That's why I speak about survival and need for a gun I stand for what them thugs is reppin' But they don't know the government is usin' drugs as weapons And drug injections, was taught by the prophets before About the cavalry of shadowy profits of war It's hard of grip, so I spit it at different degrees But the inner earth holds more water then seas

## [Bridge: Shara Worden]
