

Make Your Own Luck

Jedward

Right now you don't think it's possible
Take control, decide where you wanna go
Cause you got a story that needs to be told
So don't hold back, it's the right thing to do

Every shot brings you closer
To hitting a home run
So throw away all your problems
And show them how it's done
Cause the moments here
And its crystal clear
That your the chosen one
So what you waiting for
Let the good times roll
It's go big or go home

You gotta make your own luck
Always roll the dice
Make your own luck
Keep your eye on the prize
Cause you only have one life
Better reach for the sky
You gotta make your own luck
Spread your wings and fly

Sprint the whole nine yards, run that extra mile
Make the most of each tick tock on your stop watch
You got a royal flush, I like your style
Let's keep the fire burning, you're fabulous

Every shot brings you closer
To hitting a home run
So throw away all your problems
And show them how it's done
Cause the moments here
And its crystal clear
That your the chosen one
So what you waiting for
Let the good times roll
It's go big or go home

You gotta make your own luck
Always roll the dice
Make your own luck
Keep your eye on the prize
Cause you only have one life
Better reach for the sky
You gotta make your own luck
Spread your wings and fly

You gotta make your own luck
You gotta make your own luck
You gotta make your own luck
Spread your wings and fly

Every shot brings you closer
To hitting a home run

So throw away all your problems
And show them how it's done
Cause the moments here
And its crystal clear
That your the chosen one
So what you waiting for
Let the good times roll
It's go big or go home

You gotta make your own luck
Always roll the dice
Make your own luck
Keep your eye on the prize
Cause you only have one life
Better reach for the sky
You gotta make your own luck
Spread your wings and fly

You gotta make your own luck
You gotta make your own luck
You gotta make your own luck
Spread your wings and fly
