I traded a '57 Chevy for my first guitar
And Daddy said I was crazy 'cause that was a helluva car
When I played "Love Me Tender" on that Fender
And the music came pourin' out of my hands and heart
He knew it was worth it and so did I
'Cause sometimes, some things don't have a price

So, I learned to play all my heroes' songs
And I finally got around to writin' a few of my own
The songs got better, I put a band together
And we played our first gig at a little club in McComb
When I walked on stage and opened my mouth
I started to sing and you came pouring out

Oh, ooh Mississippi You know how hard it was for me to leave Oh, ooh Mississippi I miss you I hope you miss me My Mississippi

So, I packed my Delta dreams and came to Music City
Brought a whole lot of me, a little Presley and some Twitty
I came here to make it but if I don't I can take it
Just as long as I have you with me
I know I'm gonna be strong enough
'Cause I've got your mud in my blood

Oh, ooh Mississippi You know how hard it was for me to leave Oh, ooh Mississippi I miss you I hope you miss me My Mississippi

You know I have four first loves That car, this guitar and the girl that broke my heart $\mbox{\sc And}$ you

Mississippi You know how hard it was for me to leave Oh, ooh Mississippi I miss you I hope you miss me

(My Mississippi) My Mississippi My Mississippi (My Mississippi) My Mississippi
