

Why Should I Care

Jeff Beck

You never care about me when I was lonely
You never care about me when I was sad
You only care about me when I was talented
So why should I care about you now

You never care about me when I was down and out
You never care about me when I was blue
You only care about me when I was on top
So why should I care about you now

You never know the good times from the bad times
You never see the side of in between times
You never care about me when I was down and out
So why should I care about ya
When I was down I done without ya
Why should I care about ya now

So why should I care about ya
When I was down I done without ya
Why should I care about ya now

Oh I'm hanging on out the window
I'm trying to never let me head go
You never care about me when I was down and out
So why

Why should I care about ya
When I was down I done without ya
Why should I care about ya
I was alone I done without ya
Why should I care about ya now
