

Closer

Jeff Black

Without a doubt
There's some information missing
And that leaves an empty place inside
Then finding out
All those days you spent reliving
To find an answer just let you down
Move a little closer now
Just a little closer now to me

There is a place where we never wonder
Far away from this disrepair
Where the folly is forgotten
Will you meet me there

Will you meet me there
Where that old rumbling sound
Is nowhere to be found
Will you meet me there
Move a little closer now
Just a little closer now to me

It's a big blue sky
And a life more than existing
And the little voice there in your mind
I don't know why
I'm just tired of resisting
It doesn't matter if we fall behind
