

## Deeper In Your Debt

Jeff Black

You brought me up into this world  
With your pain with your labor  
And after all I put you through  
I still felt like your favorite  
As you laid me down to sleep  
You prayed for me until I learned to speak  
If I should die before I wake  
You made sure heaven saved a place for me  
You did it for me

I am deeper in your debt  
For all that you have given  
I can only pay you back  
With this sweet life I am living  
That's the gift I got from you  
To live life full and true  
Without guilt without regret  
I am deeper in your debt

Sometimes as I walk this road  
I feel like I am falling  
When I need someone to lean upon  
That's when I hear you calling  
In my dreams I see your face  
As you stand with amazing grace  
Even through the darkest night  
You're always there to shed some light for me  
You're right here with me
