

# Hard Way Out

Jeff Black

Mephistopheles is dead  
But the last thing the little bastard said  
Was that any fool can have my crown  
If they claim the lost before they're found  
Your broken heart will mend in time  
But some crusades they just cross the line

It's a hard way out  
It's a hard way out I know

You don't have to be the only one  
Trying to save the world  
You don't have to hold on to  
The stone to save the girl  
There's a bluebird out your window  
And that's a myth about the rain  
The hard way out is hopeless  
And that ain't ever going to change

Faces flashing in the sky  
All around your room and the reasons why  
Is this revenge or just release  
You don't have to hurt yourself to keep the peace  
These could be the best years you could fly and you could shine  
You do not have to prove that you are strong or that you were r  
ight

It's a hard way out  
It's a hard way out I know

The hard way out is hopeless  
And that ain't ever going to change
