

# They're Gonna Miss Me When I'm Gone

Jeff Black

I never thought that I'd be hanging around this damned old town  
I always thought the world was flat so I just kinds hung around  
I got a job but it ain't much sure keeps my feet down on the ground

I was born here I was raised here so I'm bound to be appraised  
here after

While

I thought that I was real cool man they missed me at my high school by a

Mile

Everything I learned I let it burn with no return in that old fire

Someday I'm gonna draw my own map honey

I'm gonna nail it to the wall

Chart my course dream a lot and save my money

They're gonna miss me when I'm gone

They're gonna miss me when I'm gone

Man if I have to drive this truck around the square one more time I'm going

To bust

Everybody follows everybody around some silly kind of trust

Yeah I've trusted destination long enough it rains a lot I'm going to rust

I sit down in the parking lot of the Hy-vee after midnight and I cried

Yeah that old sorrow's getting to me but tomorrow I still won't be

Satisfied

I'm feeling all unraveled man I throw a lot of gravel when I'm wild

Everyone in town here tells everyone around here what to do

Man I just can't go for that I can't stand for that when they do that can

You?

Well my best thinking has kept me here so I best think of ways that I can

Move
