Feel So Good

Jefferson Airplane

Baby mine Feel so good All the time If you would

The girl knows how to love Both night and day She know how to feel so fine All over in every way

Ain't no lie If you go I won't die Sure won't grow

Sit 'round running numbers Sit 'round with my friends Wasting time now, watching the sky Waiting for the story to end

Until she set me free With her motion Roll me 'round Like the ocean

I can't wait to get some more Of what the girl's got to give Living without her's like loving a wall And that ain't no way to live.
