

## Run Around

Jefferson Airplane

One time ,run around,  
Don't look and for me to go your way  
You left me here with out anything to love  
I'll tell you  
I've... had... enough of your hands running round my brain,  
And... I've... had have enough of the way that you cause me pain

So slow down, run around your other side,  
Walk with me instead tonight  
We could be near like we use to be before  
Ahh girl, ...I.. need more of the times that you turned me round  
And ...There's ...no time to turn away love I've found  
So couldn't we forget about today , start again from where we w  
ere  
We use to dance out to space without a care  
And our laughter come ringing and singing we rolled round the m  
usic,  
Blinded by colors come crashing from flowers that sway as you s  
tay here by me .

Slow down, run around  
Your love is soft  
Walk with me instead tonight  
We could be near like we use to be before  
Ahh girl, ..I... need more of the times that you turned me round  
And ..there's... no time to turn away love I've found  
Run around

Lifetime run around  
Don't look back and for me to go your way  
You left me here with out anything to love  
I'll tell you ...  
I've ..had enough of your hands running round my brain,  
And I've had have enough of the way that you cause me pain  
Well run around.
