

Run Around

Jefferson Airplane

One time ,run around,
Don't look and for me to go your way
You left me here with out anything to love
I'll tell you
I've... had... enough of your hands running round my brain,
And... I've... had have enough of the way that you cause me pain

So slow down, run around your other side,
Walk with me instead tonight
We could be near like we use to be before
Ahh girl, ...I.. need more of the times that you turned me round
And ...There's ...no time to turn away love I've found
So couldn't we forget about today , start again from where we w
ere
We use to dance out to space without a care
And our laughter come ringing and singing we rolled round the m
usic,
Blinded by colors come crashing from flowers that sway as you s
tay here by me .

Slow down, run around
Your love is soft
Walk with me instead tonight
We could be near like we use to be before
Ahh girl, ..I... need more of the times that you turned me round
And ..there's... no time to turn away love I've found
Run around

Lifetime run around
Don't look back and for me to go your way
You left me here with out anything to love
I'll tell you ...
I've ..had enough of your hands running round my brain,
And I've had have enough of the way that you cause me pain
Well run around.
