

## She Has Funny Cars

Jefferson Airplane

Every day I try so hard to know your mind  
And find out what's inside you  
Time goes on and I don't know just who you are  
Or how I'm going to find you

You can do whatever you please  
The world's waiting to be seized  
You can collect all neglect  
Or all the self-respect you need, what you need

And I know... and I know... and I know

Your mind's guaranteed  
It's all you'll ever need  
So what do you want with me?

We live but once  
But good things can be found around  
In spite of all the sorrow

If you see black  
You can't look back  
You can't look front  
You cannot face tomorrow

Some have it nice  
Fat and round, flash, paradise  
They're very wise to their disguise  
Trying to revolutionize tomorrow

And I know... and I know... and I know

Your mind's guaranteed  
It's all you'll ever need
