

# All Nite Long

Jefferson Starship

If only the music would keep on playing  
If only I could dance with you  
If only I could keep on singin'  
All night long, all night long  
If only we could dance together  
All night long, all night long  
If only we could keep this feelin'  
Make it last all night long

Waitin' for the next wave  
Wonder what's it gonna be  
Waitin' for the next  
All night long, all night long

Whoa oo oh the dawn comes up like thunder  
Somebody give me a light I need a little  
Help through the darkness  
Just a little light  
Enough to get me home  
All night long, all night long, all night long

Sometimes the music's a doorway  
Out of the darkness into the light  
Climb the dream I can make you dream  
All night long, all night long  
See the ruins of a once mighty castle  
A land where the sun casts no shadow  
Sings and wonders the sound of thunder  
All night long, all night long

Step into the sky you won't  
Fall I'll tell you why  
You got to be a sky rider  
All night long, all night long

Whoa oh oh your love come up like thunder  
Somebody give me a light I need a little  
Help through the darkness  
Just a little light  
Enough to get me home  
All night long, all night long, all night long

I can read your mind and I know  
What you're thinkin'  
I can see your mind just as clear as my own  
The pictures I see they all tell a story  
Bout where we been and where we're goin'  
Tonight if only the music would keep on playing  
Tonight if only I could dance with you  
Tonight if only we could keep on singin'  
All night long, all night long, all night long

Tonight keep on singin' dancin'  
Take me home  
Bring it home  
Tonight  
All night long
