

# Layin' It On The Line

Jefferson Starship

You see it every day in every way  
We all hear the same routines  
They all say that it's okay  
Just let us take care of everything

So we lay it on the line

Layin' it on the line, layin' it on the line  
Layin' it all, right on the line  
Just layin' it on the line, layin' it on the line  
Layin' it all, we're livin on the front line

I can see it in the faces  
We got trouble in the streets tonight  
And power keeps us in our places  
And it doesn't matter if you're left or right

You lay it on the line

Layin' it on the line, layin' it on the line  
Just layin' it all, right on the line  
Layin' it on the line, layin' it on the line  
Layin' it all, right on the line

Take it to the wilderness  
Into the jungle sun  
Lookin' for the voice of reason  
Inside this Babylon

Got U.S. boys on foreign soil  
Spillin' their blood to keep the peace  
Cities will vanish in turmoil  
While the sheiks lay sleepin' on the beach

We lay it on the line

Layin' it on the line, layin' it on the line  
Layin' it all, right on the line  
Just layin' it on the line, layin' it on the line  
Layin' it all, right on the line  
Layin' it on the line  
Just layin' it all  
Layin' it on the line  
Just layin' it all
