

## In my pocket

Jeffree Star

You gimme, gimme, gimme love and I dropped it  
You gimme, gimme, gimme love but I lost it

Where'd it go?

Left, right, left, retrace my steps  
I swear I had it right here and these things just so disappear  
Back and forth, I break a sweat  
Promise I guard it with my life, so much for do or die

Everything now means nothing to me, I got for keepsaking  
A killer without someone I break into pieces  
And while I never learn my lesson  
You'll be no exception

You gimme, gimme, gimme love and I dropped it  
I think I got a hole in my pocket  
You gimme, gimme, gimme love but I lost it  
I think I got a hole in my pocket

Where'd it go? All over the world  
What about the window?  
You gimme, gimme, gimme love and I dropped it  
I think I got a hole in my pocket

I been, I been looking round, oh oh  
I been, I been looking round, oh oh

High and low, I'm searching  
I look for the faces that I know; maybe they'll take me to you  
Run and play so I'm going nowhere  
I end up where I start, right back at your broken heart

Everything now means nothing to me, I got for keepsaking  
A killer without someone I break into pieces  
And while I never learn my lesson  
You'll be no exception

You gimme, gimme, gimme love and I dropped it  
I think I got a hole in my pocket  
You gimme, gimme, gimme love but I lost it  
I think I got a hole in my pocket

Where'd it go? All over the world  
What about the window?  
You gimme, gimme, gimme love and I dropped it  
I think I got a hole in my my my..

Slipping right through my fingers, oh I can't believe it  
It's all just happening so fast  
So answer me this, what if I can fix it?  
Would you give me another chance?

And could I hold a little love?

You gimme, gimme, gimme love and I dropped it  
You gimme, gimme, gimme love but I lost it

Where'd it go?

You gimme, gimme, gimme love and I dropped it  
I think I got a hole in my pocket  
You gimme, gimme, gimme love but I lost it  
I think I got a hole in my pocket

Where'd it go? All over the world  
What about the window?  
You gimme, gimme, gimme love and I dropped it  
I think I got a hole in my my my..

I been, I been looking round, oh oh  
I been, I been looking round, oh oh

Where'd it go, oh oh?
