

Kiss It Better

Jeffree Star

Tell me what you're made of..
I'm made of innocence too
What you're afraid of
I'll make it disappear
Beautiful scars don't last forever
Come on, let me kiss it better
The pain won't last forever
Come on, let me kiss it better

Your perfect the way you are
I wanna hold your suffering in my arms
They're talkin' & they're talkin' but they make no sound
Whatever you do don't let them break you down
You're perfect you're perfect you're perfect.. the way you are

They make you wanna self destruct
and become someone else
And when it feels like it's too much
Baby don't hurt yourself

Beautiful scars don't last forever
Come on, let me kiss it better
The pain won't last forever
Come on, let me kiss it better

Your perfect the way you are
I wanna hold your suffering in my arms
They're talkin' & they're talkin' but they make no sound
Whatever you do don't let them break you down
You're perfect you're perfect you're perfect.. the way you are

Don't you see.. don't you see..
You're P E R F E C T

Kiss it better...
