

# Size Of Your Boat feat Muffy

Jeffree Star

Hey baby  
I wanna give you some of my magic stick  
Uh what?  
You know you want it  
Oh my god, shut up!

If the size of your boat hits the tonsils in her throat,  
Just enough so that she chokes  
Bet you think that she'll be soaked  
Sew her panties in a knot, hope that's not a stuffer sock...  
You need motion in that ocean just to make that booty pop

(You know what)  
I got a little secret for the guys (for the guys)  
That wants to know if its the motion or the size (or the size)  
But if you're the one I pick to be the captain of my ship,  
Let you in my ocean baby, would you drive? (would you drive?)  
You know that these guys are quick to claim they gigantic  
But size don't mean a thing, just think about the Titanic...  
Maybe I can fake it, make you think you're doin' damage  
Umm yawn, you just don't understand it...

They say it ain't the size of your boat but the motion in ya ocean  
Boy now row.. now row  
They say it ain't the size of your boat but the motion in ya ocean  
Boy now row.. now row  
You told me we were goin' on a cruise..  
So how the hell did we end up on this canoe?  
They say it ain't the size of your boat but the motion in ya ocean  
Boy now row.. now row

La La La La...

I got another secret for the guys (for the guys)  
Who's quick to brag and always talk about their size (about their size)  
But if my bedroom had a sign like a roller coaster ride  
Would you be too short to even come inside? (come inside?)  
Cuz you know that these guys are quick to tell you that they're packin'  
The truth is I can't see it with some magnifying glasses  
Maybe with some tweezers we can get into some action  
And boy you got me laughin'

They say it ain't the size of your boat but the motion in ya ocean  
Boy now row.. now row

Wally Wally Power Boat  
Smooth and sleek, I stay a float  
Ladies !! Lets take a vote, only ride that which is dope  
Could be big or could be small....

I know a chick who takes it all, if you take her to the mall  
Pump that monkey Frank like Paul  
I'll sink your battle ship  
I've seen tanks much bigger than yours can get  
Your sails up, ready to fish  
Life guards on duty, are you ready to jump in?

They say it ain't the size of your boat but the motion in ya ocean  
Boy now row.. now row
