

# Take A Bite

Jeffree Star

I stay out all night and sleep all day  
And when the sun goes down, I'm ready to play  
A rush to the head and now you're infected  
I'm dead, its time to get ressurected

I wanna taste you wherever, whenever  
Me and you can do this forever  
Lickin my lips, its you that I'm cravin  
Give me my fix, I'm misbeahavin

I get rowdy when I'm out all night  
If you get too close, I'm gonna bite  
Dancing like the worlds gonna end  
Nothing scares me..  
(I think I have a bloody nose)

Now baby let me be your vampire  
I can be your vampire  
Let me be your vampire..  
So I can suck on you

You know I've got my eyes on you  
Get you in a trance from across the room  
I can make you mine and I know that you want me  
Once I start you wont be able to stop me

I wanna taste you wherever, whenever  
Me and you can do this forever  
Lickin my lips, its you that I'm cravin  
Give me my fix, I'm misbeahavin

I get rowdy when I'm out all night  
If you get too close, I'm gonna bite  
Dancing like the worlds gonna end  
Nothing scares me..  
(I think I have a bloody nose)

Now baby let me be your vampire  
I can be your vampire  
Let me be your vampire..  
So I can suck..

I got the bad words to make your clothes fall off  
I got the bad words to make your clothes fall off

I get rowdy when I'm out all night  
If you get too close, I'm gonna bite  
Dancing like the worlds gonna end  
Nothing scares me..  
(I think I have a bloody nose)

Now baby let me be your vampire  
I can be your vampire  
Let me be your vampire..  
So I can suck on you
