I had the love we've made tonight  
Now in my heart I knew how good a love can be  
For there's one more with all my life  
I had one night when love was right  
And I hold on to it

I never dreamed, I'd be the one to change  
Look at me completely swept away

For there's one more with all my life  
I had one night when love was right  
And I hold on to it  
If tomorrow never comes

You are the one that I've been waiting for  
Kiss me to say forever  
Hold me this way forever
