

# You Were Made to Love

Jeffrey Osborne

Love is everything  
That you are to me  
Your reflection shows a glimpse of heaven  
Love is all around  
When you're here with me  
Stay around  
Love me  
Love me never  
Never

I know the sun was made to brighten up the days  
The moon was made to light the night  
And then baby they made you  
Oh so beautiful  
So they sprinkle you with sugar and some spice  
Cause you were made to love

Your love made me change  
In so many ways  
Changes that were so much for the better  
Made me want to live  
Through the trying days  
Just to have your love that's all that matters

Oh  
I'm living for you

I know they made the bees to pollinate the flowers  
The moon was made to bare the fruit of life  
But when baby they made you  
Oh so beautiful  
So they sprinkled you with sugar and some spice  
Cause you, you  
You were made to love  
And I love you  
You oh ooohhh
