

## Got It Good

Jem

If I had one wish  
If I had one wish  
It would be to be free of this fighting all around  
'Cause it's so wrong  
And it could be so right  
In my heart I know we're here to grow, to love, to give, to learn, to live..  
.  
And I believe in miracles  
Open up your eyes

Got a soul, got a mind  
Got a heart that beats in time  
You've got a smile, got a voice  
Got the gift of love  
You've got it good  
Don't forget how lucky you are  
Darling, darling, use it to connect with everyone

Don't you know we're golden  
Covered up with mud  
One day you'll see the truth that we all share the same blood  
Supposed to love thy neighbour  
Together we should stand  
Whatever colour, race or creed  
Come on and hold my hand  
'Cause I don't differentiate  
We're all the same to me

Got a soul, got a mind  
Got a heart that beats in time  
You've got a smile, got a voice  
Got the gift of love  
You've got it good  
Don't forget how lucky you are  
Darling, darling, use it to connect with everyone

And it's getting so serious  
Crushed my heart in pieces  
But I know I'm not alone in wanting peace  
Not alone  
And if you feel what I feel  
Raise your hands with me

Got a soul, got a mind  
Got a heart that beats in time  
You've got a smile, got a voice  
Got the gift of love  
You've got it good  
Don't forget how lucky you are  
Darling, darling, use it to connect with everyone

Got a soul, got a mind  
Got a heart that beats in time  
You've got a smile, got a voice  
Got the gift of love  
You've got it good  
Don't forget how lucky you are

Darling, darling, thank you for the moments that we had
