

My Love

Jem

I never thought that I would find
Someone so sweet and kind
And lovely as you, you, you
And I'll, I'll never let you down
I'll always be around
Forever yours and true, true

Cause I love you
And I always will
Oh I, know I, was blessed
When I met you

Well I know that it has paid
To wait for all these days
For you to come my way, way, way
Cause I wanted someone I'd adore
Who'd love me even more
Be there for me come what may

Oh, I love you
And I always will
You're everything
I've ever dreamed
I was blessed
When I met you

How to say
What words can't convey
What's to fear
When heaven's right here
I feel this love tonight

I have a twinkle in my eye
(Always love you)
You keep me young inside
(All my life, it's you)
Your blue eyes make me
Swoon Swoon Swoon!

And I, hope you like the song
(It's you forever)
Serenade you all night long
(Keep our love so strong)
Kiss me quick
And hold me till it's dawn

My love
