

Place To Fall

Jennette McCurdy

Sometimes I feel so alone
Sometimes I can't stand the dark
Sometimes i just want to hold
Someone who really knows my heart
Sometimes there's tears behind my smile

And I get lonely in a crowd
Feels like I'm stuck under a cloud
and I need somewhere safe to hide away from it all
sometimes I just need a place to fall

That's when I run to you
You're the one that I call home
You're the only who sees the broken part of me
You're the only one who knows

That I get lonely in a crowd
Feels like I'm stuck under a cloud
And I need somewhere safe to hide away from it all
Sometimes I just need a place to fall
To fall

Sometimes there's tears behind my smile
And I get lonely in a crowd
Feel like I'm stuck under a cloud
And I need somewhere safe to hide away from it all
Sometimes I just need a place to fall
To fall
