

Hurts So Bad

Jenni Rivera

Tell me why does it hurt so bad?
(hurt so bad)
Baby how did we lose what we had
(what we had)
There were moments I loved you much more than myself
(much more than I love myself)
There were times I was being somebody else,
Living the love that was wrong

Tell me why does it hurt so bad?
We were young and in love, and you know that
(you know that)
Boy you gave me all your love, your body and soul
Oh baby
There were times you would needing somebody to hold
Living a love that was cold

Tell me how does it hurt so bad baby
Tell me how do we mend the pain and the past baby
Cause it kills me inside that you and I just had to say goodbye
Tell me how can we make things right

Tell me why does it hurt so bad?
(so bad)
Cause the heart can only take so much pain
(oh so much pain)
After all of this time we can still do our thing baby
There were times we were being selfish and wrong
Living as friends we move on

Tell me how does it hurt so bad baby
Tell me how do we mend the Wain and the past baby
Cause it kills me inside that you and I just had to say goodbye
Tell me how can we make things right

We can make
We can make
Yes we can
Gonna make things right
Yes we can
We can make
We can make
We can make
Gonna make things right
Yes we can
We can make
We can make
Gonna make things right
Gonna make things right
Yes we can
We can make it right
We can make
We can make
Gonna make things right
